Create a poster persuading people to celebrate the Easter Bilby, rather than the Easter Bunny. Include facts you have learnt about each animal and make sure your poster is eye-catching.

Design the packaging for a new Easter egg which promotes the Easter Bilby. Think about the colours and images you will use and the information you could include on the box. You will need to design the foil wrapping for the egg as well as a box for it to be placed in.

Research the history of rabbits in Australia. Create a timeline showing some of the key dates in the story of this introduced animal.
Find out more about the bilby. Draw and label a diagram showing the bilby in its natural habitat. Include some of the other plants and animals that make the same place their home.

Write and illustrate a short children’s story around the theme of the Easter Bilby. Think about the characters you will include and the problems they will have to overcome. Include information you have found out about rabbits and bilbies in Australia.

Research other native Australian animals that are endangered. Think about a campaign like the chocolate Easter Bilby that you could start for your chosen animal. Design a poster or write a paragraph to explain your idea.
